

PREFAB PROJECT ARCHITECTS

Marmol Radziner Prefab, a design-build practice encompassing Prefab Design and Construction, seeks **Project Architects** for our Prefab team. The majority of your work will focus on residential prefabricated design.

See our Prefab website for further information, www.marmolradzinerprefab.com

Responsibilities:

- Include design and documentation services in our architectural office as well as on site oversight and coordination in our prefab factory.
- All projects are designed and documented using AutoDesk.

Requirements:

- College Degree in architecture from an accredited college
- Minimum of 3-6 years of working experience in schematic design through construction document phases, consultant coordination and construction administration
- Advanced knowledge of AutoCAD drafting and 3d modeling required
- Proficiency in Revit or 3d modeling programs is a plus
- Knowledge of general construction techniques is a plus

We are looking for professional, creative, and talented team members who bring both skills and a positive approach. Our office is filled with employees who are witty, intelligent, and share our commitment to the design-build approach. Our employees must work well on small teams and in fast-paced environments. Our teams balance both big picture project management and the detailed execution of our work.

We offer Competitive Compensation and Benefits

If you think you are a good match for this position, we want to hear from you. Please send work samples and resumes to:
