

PRODUCTION DETAILER

Marmol Radziner Prefab, a design-build practice encompassing Prefab Design and Construction, seeks a **Production Detailer** for our Prefab team. The majority of your work will focus on residential prefabricated design.

See our websites for further information, <http://www.marmolradzinerprefab.com/> and <http://www.marmol-radziner.com/>

Description:

Analyzes architectural drawings for production purposes and clarifications. Produces production and shop drawings. Assist the Project Engineer and or Shop Manager as needed.

Essential Duties and Responsibilities:

- Participate as necessary in pre-construction services
- Conduct thorough construction reviews.
- Implement engineering management/document control systems.
- Prepare shop drawings.
- Prepare production drawings.
- Prepare cut lists for standard subassembly parts.
- Maintain drawing logs and project files.
- Perform other duties as assigned.

Requirements:

Minimum Associate degree in Drafting, Architecture, Engineering or Construction Management. 1-5 years experience in architectural or and construction detailing. Proficiency in AutoCad 2007 a must. Ability to communicate clearly and convey production information is essential.

Salary is based on experience and abilities.

To apply, email or mail a hardcopy of your cover letter, resume and work samples – include both academic and professional – to the contact information below. Please keep digital files under 3MB.
